

EASY READ: ORGANISATIONS IN ELLA

There are 20 organisations from 13 different countries working together in the ELLA project.

These countries include: Austria, France, Germany, Greece, Ireland, Israel, Lithuania, Netherlands, Poland, Portugal, Serbia, Sweden and Turkey.

The organisations involved in the ELLA Project work with and for people with disabilities, young people and people who need financial support. Through art, music and theatre some organisations help people to feel like part of their community. Other organisations offer community service or traineeships for their participants. These organisations work together to find new ways for people to learn and work together.

Some organisations are responsible for managing the project itself. Other organisations work together with participants on different Work Packages.
